## Twitter user growth

Daily users defined as monetizable by Twitter

Can you report inactive twitter accounts. What happens to inactive twitter accounts.

You can always access the Inactive Account Policy on the official website. Earlier, it was easy for people to get any username they wanted because of fewer accounts. However, it could be hard to get a response as the account would be inactive. It is a perfect way to represent your brand. Of course, you could make a few changes to your username so that it looks unique. Therefore, you must read and understand Twitter's guidelines and policies before you make this move. Choose a Similar Name So, it may sound like a no-brainer as you may have already considered it. In this post, you will learn how to claim a Twitter username that's already been taken. It has no profile photo. Even if the account has been inactive for a really long time, you can't use their usernames. But what if you want the same username? The success ratio of claiming inactive Twitter accounts is getting lower each year. But, as the popularity of Twitter has skyrocketed, it is almost impossible to get a username in the first attempt (unless it is a weird combination of letters and digits). Until then, you can use a slightly changed username. You could also use this to your advantage by adding your business name after your username. Purchase Username If you can get hold of the Twitter name without actually involving Twitter, it is the easiest way out. That will give you an idea of what is planned for the future and what options do you have now. There are several ways to claim inactive usernames but keep in mind there is no official way to do that. Try to find the person and request a username transfer in exchange for a sum that suits your pocket. There is no activity reported from these accounts for the past 6 months. Please tell us more: Select çAAAI am being impersonatedçAAA. Also Read: If you have tried all the above methods and nothing has worked for you, your last resort is to choose a similar username. 5.
